**SECTION 2 | ABOUT / GROUP OVERVIEW****SECTION HEADING****Integrated Infrastructure & Enterprise Solutions****BODY COPY**

Uhuru Group is a South African holding company operating across property maintenance, construction, facilities management, property investment and enterprise development.

Through its group companies, Uhuru delivers practical, scalable and operationally driven solutions to corporate, commercial, public sector and retail clients across South Africa.

Our approach combines technical capability, operational excellence and long-term partnership thinking — creating sustainable value for clients, communities and stakeholders.

**GROUP COMPANY TILES — NAME + ONE-LINE DESCRIPTOR**

|                                |                                                                                                                                        |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Uhuru Trading 2004</b>      | Integrated property maintenance, facilities management and construction services across insurance, corporate and retail environments.  |
| <b>Uhuru Academy</b>           | Artisan development and enterprise readiness platform — skills development, operational excellence and economic participation.         |
| <b>Top Building Investment</b> | Property investment and development — acquisition, redevelopment and value creation across residential, retail and commercial sectors. |
| <b>Uhuru Consortium</b>        | Special-purpose partnership platform — joint ventures, strategic collaborations and infrastructure project delivery.                   |

#### What We Do

*Eight tiles in a 4-column grid. Each tile: icon placeholder + service name (bold) + one-sentence description.*

|                                  |                                                                                                                                               |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Facilities Management</b>     | Integrated FM solutions supporting operational continuity and long-term asset maintenance across commercial and retail environments.          |
| <b>Construction Services</b>     | Renovations, refurbishments, general building works and project execution across residential, commercial and institutional environments.      |
| <b>Property Maintenance</b>      | Planned, preventative and reactive maintenance — preserving infrastructure quality and reducing operational downtime.                         |
| <b>Electrical &amp; Plumbing</b> | Electrical, plumbing and technical services aligned with quality, safety and compliance standards in corporate and construction environments. |
| <b>Project Management</b>        | Structured project planning, coordination and execution with quality oversight and stakeholder engagement throughout.                         |
| <b>Property Investment</b>       | Strategic property acquisition, redevelopment and value creation across selected South African property sectors.                              |
| <b>Enterprise Development</b>    | Artisan development, enterprise readiness and economic participation through practical skills and operational exposure.                       |
| <b>Joint Venture Solutions</b>   | Structured partnership and project collaboration for infrastructure, construction and strategic development opportunities.                    |

**SECTION 4 | ESG & IMPACT****SECTION HEADING****Building Sustainable Impact****BODY COPY (LEFT COLUMN)**

Uhuru Group believes infrastructure development and economic participation should move together. Our operations are grounded in transformation, skills development and responsible business practice.

Through Uhuru Academy and our enterprise enablement initiatives, we support the development of commercially ready artisan enterprises capable of participating meaningfully in the South African economy.

**BULLET POINTS (RIGHT COLUMN)**

- Transformation-aligned operations
- Skills development and artisan enablement
- Community participation and local procurement
- Operational excellence as a delivery standard
- Responsible and ethical business conduct

**UHURU ACADEMY CALLOUT CARD (OPTIONAL, BASE OF SECTION)****Uhuru Academy**

Our dedicated artisan development and enterprise readiness platform — building commercially capable enterprises from the ground up.
